## **The Early Years**

Daniel Boone was born in Pennsylvania in 1734. His family was of English descent, and they had been living in the American colonies for several generations. Boone's father was a farmer and a blacksmith, and he taught his son the skills of the trade.

As a young man, Boone was drawn to the wilderness. He loved to hunt and explore, and he spent much of his time in the forests of Pennsylvania and Virginia. In 1755, Boone joined the British army to fight in the French and Indian War. He served for several years, and he gained valuable experience in fighting and survival in the wilderness.

## **The Settlement of Kentucky**

After the war, Boone returned to Pennsylvania, but he soon decided to move west. He heard stories of a beautiful and fertile land called Kentucky, and he was eager to explore it. In 1769, Boone led a group of settlers into Kentucky. They built a fort called Boonesborough, which became the first permanent settlement in the state.

The settlers faced many challenges in Kentucky. The land was wild and dangerous, and they were constantly under threat from attacks by Native Americans. However, Boone and his men were determined to stay. They fought off the Native Americans, and they began to develop the land.

## **The Battle of Blue Licks**

In 1782, the settlers of Kentucky were attacked by a large force of Native Americans. The battle took place at Blue Licks, and it was one of the bloodiest battles in the history of Kentucky. Boone and his men fought bravely, but they were outnumbered. The Native Americans were victorious, and they killed many of the settlers.

The Battle of Blue Licks was a setback for the settlers of Kentucky, but it did not discourage them. They continued to fight for their land, and they eventually won. Kentucky became a state in 1792, and Boone was one of its first representatives in Congress.
